

# MUSTAFA JAMAL

## Front End Developer

03479749239

- <https://www.linkedin.com/in/mustafa-jamal-60080228b>
- Pakistan Rawalpindi / Peshawar
- mustafajamals habqadar@gmail.com

## EDUCATION

Bachelor of computer science

Agriculture university of Peshawar Pakistan

2022 - 2026

## SKILLS

| FrontEnd development |               | web Development | React Development |            |
|----------------------|---------------|-----------------|-------------------|------------|
| HTML                 | css           | Tailwind css    | Javascript        | Typescript |
| React.js             | Redux Toolkit | Git / GitHub    |                   |            |

## STRENGTHS

- Code Magician:** Writing clean efficient and innovative that solve complex problem

- Intense focus on clean, modular code -  
Open- source contributions and  
collaboration - Continuous learning and  
experimentation

Results:

- 30% reduced codebase complexity
- 25% improved application performance
- 20% increased customer satisfaction

## PASSIONS

- Passionate about creating intuitive user experience, pushing front end innovation and contribution to open source. Dedicated to staying up to date with industry trends. Building personal projects and collaborating with other to drive share success.

## Experience

- CodeAlpha is an Indian software development company that provides end-to-end services in web and mobile app development, cloud computing, AI, and DevOps. There start my three (3) months of internship in web development. And generally I have 2 years of experience in web development

## SUMMARY

Hello I am Mustafa Jamal a frontEnd developer with passion for building beautiful and responsive, user friendly interfaces. My goal is to create digital experiences that delight and inspire users. When I am not coding you can find me exploring new design trends, learning about emerging technologies or contributing to open source projects. - Continuing to expand skillset and explore new technologies and frameworks - Seeking opportunities to collaborate and contribute to innovative projects and teams

## KEY ACHIEVEMENTS

- I Rapidly learned Html, CSS, Tailwind css, JavaScript, react+ redux and applied for modern front end technologies to real world projects**  
Developed a strong foundation in coding principle's and best practices and problem  
Demonstrated adaptability, persistence and passion for continues learning and growth.
